Little Children Brighten Homes

EVERY young couple starting out in life has visions of joyful hours spent before the fireside with healthy, happy children; but, alas, how often young women who long for children are denied that happiness because of some functional derangement which may be corrected by proper treatment. Lydia E. Pinkham's Vegetable Compound is just the medicine for these conditions, as the following letters show:

McDonald, Ohio.—"I suffered from a displacement, a weakness, and a great deal of pain. The doctor said nothing would help me but an operation. He said I could never have any children because I was too weak."

"I had often heard of Lydia E. Pinkham's Vegetable Compound, so I tried it and it helped me. Now I am in the best of health, do all of my own work, and have a lovely boy six months old. I recommend your medicine to my friends and you have my permission to use this letter."

Mrs. J. C. EAGLESON, 426 Garfield Ave., McDonald, Ohio.

Mesa, Colorado.—"Ever since I was a young girl I suffered from a great deal of pain every month. I tried different medicines, but only got relief for a short time. I had been married seven years, and wanted a child, but was not well enough. My mother advised me to try Lydia E. Pinkham's Vegetable Compound as it had helped her, and I am happy to say it restored my health, my pains disappeared, and I have a fine little girl. I advise all women who suffer as I did to try Lydia E. Pinkham's Vegetable Compound."
